21st Century Classrooms

In an effort to bring Omaha Central High School into the 21st century and bridge the digital divide, The Central High School Foundation has kicked off a wireless capital campaign.

This initiative, which is chaired by Matt '74 and Sheri Aden, will create a technological

infrastructure to support learning at Central High School for the next 20 years, providing a 21st Century learning environment for all students at Central High School. The project includes creating wireless access points for Internet connectivity, installing hardware for instruction and presentations, and purchasing mobile computer classrooms.

Introduced in March of 2011, the initiative has already installed interactive smartboards in each one of Central High School's 75 classrooms this fall. For more information on this initiative or to support it, please contact the Central High School Foundation office at 402-556-1996.

Generation "C" Activities & Updates

Principal Symposium:

Generation "C" Principal Symposium "Reflecting on a Tradition of Excellence" was held on July 20, 2011.

A commitment to academic excellence and student equity at historic Omaha Central High School remained the common themes of past and present CHS principals. During the Principal Symposium, hosted by Mike and Susan Lebens '70 at the Omaha Country Club, the leadership and commitment of principals Dr. G. E. "Doc" Moller, Dr. Gary Thompson, Mr. Jerry Bexten, Mr. Greg Emmel and Dr. Keith Bigsby continued to inspire students, staff, parents, and alums of Central High School.

Football Tailgate: Members of Generation "C" enjoyed a CHS Tailgate before the Papillion-LaVista South vs. Central football game on September 30. A tailgate supper was held in the lobby overlooking the stadium prior to the game.

Generation "C" Memberships: Memberships are still available and more events are planned. With your ongoing belief in Central High School even more will be accomplished. By joining Generation "C," you are helping secure the future of Central. [Click Here to Join Generation "C"](#)
